

The name of the relevant government policy or piece of legislation;	The specific changes identified for action;	The bases for the changes identified;	The date the Federal Department of Health (in its various forms) or Australian Government was advised of the changes identified;	The complaint number each change identified relates to.
Assistive Technology and Home Modifications list (AT-HM list)	Requested consideration of change to AT-HM list to remove exclusion of CPAP/BiPAP machines, where these respiration aides were not already provided by the relevant jurisdiction. No change made.	Older person was unable to access BiPAP machine through NSW state-based scheme due to receiving Support at Home package, but was also unable to receive BiPAP machine under AT-HM on the grounds that the machines are funded by other schemes. Older person was therefore unable to access funding to purchase the machine under both the Commonwealth and State-based schemes.	Issue was raised with Department of Health, Disability and Ageing on 17 February 2026.	Complaint ending 1405
