

Sector readiness plan

This plan gives an overview of the resources the Commission will publish to help the aged care sector prepare for the new *Aged Care Act*.

The resources being developed by the Commission aim to:

- provide information to older people, workers, providers, other stakeholders in the sector and the wider community as soon as it is practicably available.
- make information and products easy to find and navigate, noting the volume and complexity of information that will be available to the sector from the Commission and others.
- ensure as wide a reach of information and products as possible, by providing key information in a range of formats and spotlighting it at different times.
- support diverse audiences by producing tailored resources for First Nations and culturally and linguistically diverse providers, workers and older people.

Updated June 2025

Please note that information (including dates) in this plan may change. Please refer to the monthly [Quality Bulletin](#) and our [website](#) to keep up to date.
