

What is the SIRS?

Everyone in aged care has the right to feel safe.

To keep you safe, the government has introduced the **Serious Incident Response Scheme** or **SIRS**.

SIRS will reduce the risk of harm to aged care consumers.

If a serious incident happens, staff at your aged care service must:

Check you and others are okay

Record what happened in their incident management system

Report the incident to the Aged Care Quality and Safety Commission

If you see something, you can raise it with any staff member.

Let's stay safe together.
